

**Sponsor a tree at the New South Western Showjumping Club Showground for just £15!**

The South Western Showjumping Club needs to plant various trees and hedges at the showground due to the requirements of our planning application!

However, as this is going to cost the Club extra money, we thought it would be an exciting and creative environmental idea for our members to sponsor a tree.

By sponsoring one of our trees that we have specifically chosen and planned to fit with our natural surroundings, you can celebrate an event, a birth of a foal or baby, or even have a family tree. It also may be a way to remember a special loved one, whether it be a friend, a family member, a horse or a pet by planting a tree in their memory!

The cost of one of our planted 1m sapling, with a protective tube and stake will cost £15, and plaques can be arranged and added if you so wish.

Your generous donation will mature into this!
